## Profile

IT Director with 19 years of experience in IT, cybersecurity and educational technology. Head of the cyber security team at ILBC, the largest international school in Myanmar, and in charge of IT and cybersecurity for three schools across Myanmar, Thailand and Singapore. Technology Manager of the Saungpokki Online Learning Platform, National Coach of Myanmar's World Robot Olympiad team, and leader of the ACCTC Myanmar public awareness campaign. Began as a programmer in 2007.

## Professional Experience

### IT Director in charge of Cyber Security (promoted)

**ILBC Holding Company Limited | 2026 - present**

- Manage IT and cybersecurity for three schools across Myanmar, Thailand and Singapore.
- Designed the digital architecture of Singapore Global International School (SGIS), connecting parent submissions through the CRM to the admissions platform; approved by school management and now in use.
- Responsible for data protection of admissions and family data.

### IT Director & Head of Cyber Security Team

**International Language and Business Centre (ILBC), Myanmar | 2008 - present**

- Lead a 45-person IT department at the largest international school in Myanmar.
- Built an internal cybersecurity team, upgraded firewalls, and introduced vulnerability assessments and penetration tests; wrote the findings and required controls into the school's IT policy and SOP.
- In 2020, moved the school system online within two months for over 8,000 students and 2,000 teachers; no successful cyberattacks since.
- STEAM Coordinator: brings robotics and coding into the classroom.

### Technology Manager

**Saungpokki Company Limited | 2023 - present**

- Led the Saungpokki Online Learning Platform, building apps and leading developers, the product owner, stakeholders and cross-functional departments.
- Security-tested the apps and web platform before launch; used by schools in Thailand since 2024.

### Founder, ACCTC Myanmar

**Awareness Campaign of Cyber Crime and Transnational Crime (YSEALI TechCamp grant) | 2018 - present**

- Ran a public campaign on cybercrime, transnational crime and fake news, online and in person at the American Center, youth events and district events.
- Spoke on Mandalay FM talk shows; the campaign reached over 500,000 people.

### National Coach

**Myanmar World Robot Olympiad (WRO) Team | 2018 - present**

- Guided teams to three national championships and the WRO International Finals in Chiang Mai (2018), Budapest (2019), Izmir (2024) and Singapore (2025).

## Earlier Career

**Department Head, Web Development and Cyber Security Section, ILBC 2015 - present**
Led the section, built school websites, trained and monitored junior staff, and taught teachers the latest IT skills.

**Database Application Developer, ILBC 2011 - 2015**
Built and supported student information, exam reporting, HR, accounting and fingerprint attendance systems for school branches nationwide; moved the school website to WordPress.

**Assistant Database Programmer, ILBC 2008 - 2011**
Operated student information and exam reporting systems; supported hardware, software and networks.

**Junior Programmer, Evolva Software House, Mandalay 2007**
Requirements analysis, database design and a point-of-sale system.

## Mentoring, Coaching and Leadership

- Mentor, coach and leader in YSEALI projects in Myanmar.
- Coach and leader in the World Robot Olympiad, guiding Myanmar teams to national championships and international finals.

## Selected Achievements

- Reached over 500,000 people in Myanmar with the ACCTC awareness campaign.
- Moved a school system online in two months for 8,000+ students and 2,000 teachers, with no successful cyberattacks since.
- Promoted by ILBC Holding Company Limited to lead cybersecurity across three schools in three countries.
- ILBC Robotics Team won the Best Robot Design Award and second place at the Myanmar STEM Robot Competition 2018.
